Takyeef Factory LLC joins Eurovent Middle East

The region's HVACR association grows its membership base by local OEM company

Dubai, 06 December 2023. Takyeef Factory LLC, one of the leading OEM manufacturers of HVACR equipment in the Gulf has joined the Eurovent Middle East association, driven by its mission on delivering a broad portfolio of premium international products and underlining its commitment to support energy efficiency and sustainability initiatives in the region.

Located on 30.000 square meters in the Industrial City of Abu Dhabi (ICAD), Takyeef is specialised in the manufacturing of standard and customized HVACR equipment, including fan coil units, ducted split systems, air handling units, condensing units, and packaged units. Its products are certified by internationally recognised bodies like Eurovent, signifying Takyeef's commitment to operational excellence and capability in delivering top-tier HVACR solutions.

Mr Amaury Guidez, General Manager of Takyeef Factory, notes: "Joining hands with other manufacturers and service providers under the roof of Eurovent Middle East will allow us to strengthen our relationships with the industry and support joint initiatives important to our sector. We are looking forward to cooperating on education and trainings, as well as on regulatory matters with our colleagues and peers."

Mr Markus Lattner, Director of Eurovent Middle East, adds: "It is essential for us to bring local manufacturers on board for our mission to increase energy efficiency, sustainability, and quality in our industry. Therefore, we are delighted to welcome Takyeef and look forward to expanding our collaboration with international and local companies."

Eurovent Middle East represents the region's leading manufacturers of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, Industrial Ventilation, and Building Automation Technologies, as well as sector associations and industry initiatives active in these fields. By thinking 'Beyond HVACR', contributing manufacturers fulfil highest requirements in terms of product quality and sustainability. For more information, visit www.eurovent.me.
