## Introducing new ways of information distribution tailor-made to your needs

### Important information for members of the Eurovent Association

**We have listened to your feedback and improved our system of information distribution to members. As of now, the way of distributing 'GEN(eral) documents' through separate emails will end and replaced by a new, innovative information channel tailor-made to your needs.**

### Introducing ClimaNovela

#### ClimaNovela (our new biweekly newsletter)

Every second week, you are going to receive our newsletter called **ClimaNovela**, which showcases latest industry news and provides updates from the Eurovent Association and its partners on industry developments, European and international legislation, standards, and upcoming events.

Within the newsletter, you can decide yourself what is of relevance to you through short summaries. When clicking on an article, more detailed information is going to be provided to members only.

#### ClimaNovela Express (news of immediate relevance)

Information of a higher, more immediate relevance or certain Calls for Action are going to be distributed immediately through our **ClimaNovela Express** newsletter.

This newsletter will not be randomly distributed to everybody, but instead only to members to which we believe it might be of high relevance – based on your group memberships or allocation within our CRM system. Rest assured: The information of the **ClimaNovela Express** newsletters will also show up in the biweekly version outlined above.

#### ClimaNovela Interactive (our online video channel)

Our current online video channel is going to become **ClimaNovela Interactive**. It is going to contain all our interactive presentations and videos, as well as outstanding videos published by our members.

Has your organisation produced a great video? Let us know and we will add it to our various channels.

### Add us to your list of Safe Senders

In order to receive all information, it is essential that you add [secretariat@eurovent.eu](mailto:secretariat@eurovent.eu) or @eurovent.eu in general to your list of Safe Senders.

Although our database is well maintained, we only include secure https:// links, and avoid spamming, it can sometimes happen that we end up in your junk folder.

### Share your thoughts

Your feedback is important to us to better serve your needs! Do not hesitate to share your thoughts and ideas with our Team.
