

Download all meeting documents at one click

New Eurovent Extranet feature launched

Your feedback matters to us. The Eurovent Team is constantly working on the further development of the Eurovent online portal. The latest, recently launched feature allows members to properly prepare for their meetings by downloading all meeting documents at one click as a ZIP file – instead of one by one.

Background

In the beginning of 2017, the Eurovent Association launched its Extranet with the aim to simplify document and information distribution tailor-made for members' needs.

Large part of the Eurovent Extranet are the working group meetings including registration and download of all meeting preparatory/related documents.

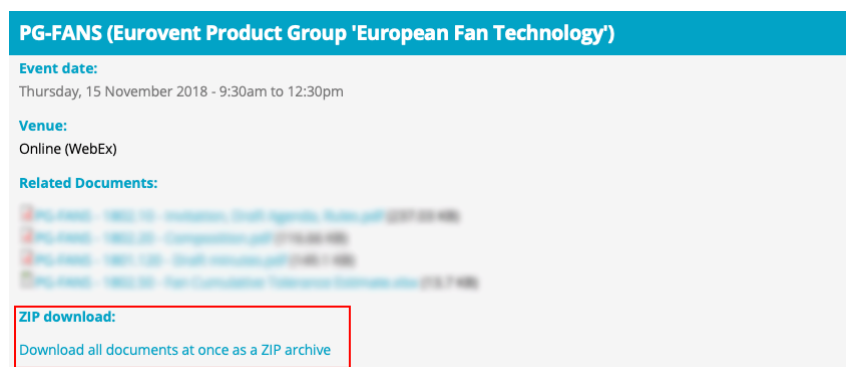

New feature

We are listening to your feedback and constantly improving our Extranet. The latest feature allows members to download all preparatory/related meeting documents in simply one click, instead of having to download each document separately.

Thank you in this respect to Viktor Levickij (SALDA, Lithuania) for the suggestion.

Recommended Actions

Members are recommended to make use of the new feature and downloading all meeting documents as a ZIP file at one click. This can be done in the section 'ZIP download' of each Eurovent meeting page on the Eurovent Extranet, as shown below.

The screenshot shows a meeting page for 'PG-FANS (Eurovent Product Group 'European Fan Technology')'. It includes event details like date (Thursday, 15 November 2018 - 9:30am to 12:30pm) and venue (Online (WebEx)). Under 'Related Documents', there is a list of documents. A red box highlights a 'ZIP download' button with the text 'Download all documents at once as a ZIP archive'.

For more information on the Eurovent Extranet, please refer to the enclosed How-To Guide for the Eurovent Extranet available in English and German.
