BELIMO to join Eurovent Middle East

Worldwide leader for actuator and valve technology in HVAC systems joins the region's growing network of high quality manufacturers

Dubai, 15 October 2017. BELIMO, the worldwide leader for actuator and valve technology in heating, ventilation and air conditioning systems, is going to join the Eurovent Middle East association in a further move to underline its 'Swiss Quality' principles in the GCC region.

BELIMO has been setting standards in HVAC actuator and valve technology since 1975. With BELIMO Automation FZE in Dubai with entities located in Qatar and Saudi Arabia, the Swiss originated global market leader has been serving customers across the Middle East region for more than a decade. It offers complete range of products from one source with a reputation for excellent value for money and a 5-year warranty on its entire product range.

David Stevenson, Managing Director of BELIMO Automation FZE, states: 'We very much look forward to working with Eurovent Middle East and its members with an aim to work towards a lower energy demand, a coordinated approach towards standardisation, legislation, public initiatives and events. It will also provide us with a much-needed networking platform that brings the region's HVACR industry leaders together. We will look forward to participate in the upcoming HVACR Leadership Workshops, where BELIMO can showcase and discuss some of their market leading and innovative product solutions.'

With BELIMO joining, Eurovent Middle East is further substantiating its role as the leading manufacturer platform in the region, contributing to high quality standards and an advancement of technology in the Middle East.
