NOVENCO Building & Industry joins Eurovent Middle East

Leading ventilation solution provider to support joint industry initiatives

Dubai, 08 November 2021. NOVENCO Building & Industry, part of the SCHAKO Group and a leading provider of energy-efficient and life safety ventilation products and systems has joined the association as a commitment to joint industry initiatives in the fields of standardisation, education and awareness raising. Founded in Denmark in 1947, NOVENCO Building & Industry has set foot in many markets around the world and has been present in the Middle East for 10 years.

Specialised in ventilation equipment for the building and industrial sector, NOVENCO Building & Industry creates green solutions within such diverse areas as industry and agriculture, air handling units, carpark facilities, data centres, windmills, tunnels, fire and safety systems, and much more. The environment and the application of highly technological production methods are natural parts of NOVENCO's design, development, and production. The products reflect this with excellent quality, high efficiencies, long lifetimes, and high recyclability rates.

Jakob Bergendorff, International Sales Director, NOVENCO Building & Industry A/S confirms its commitment: "NOVENCO Building & Industry stands for highest standards in terms of sustainability and efficiency. We are looking forward to joining Eurovent Middle East and support the joint initiatives of the industry to promote and educate on higher standards, better integration of sustainable technologies and the implementation of sound regulatory frameworks."

Markus Lattner, Managing Director of Eurovent Middle East adds: "NOVENCO Building & Industry will strengthen our footprint in the ventilation segment and extend our expertise to tunnel and parking ventilation and to several critical applications, from food processing to data centres. We are grateful for their support and look forward to work on several initiatives in these fields together with our members."

About Eurovent Middle East

Eurovent Middle East is the region's only industry association for Energy Efficiency, Indoor Air Quality and Cold Chain Solutions. Its participants constitute leading manufacturers of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, Industrial Ventilation, and Building Automation Technologies, as well as sector associations and industry initiatives active in these fields. By thinking 'Beyond HVACR', contributing manufacturers fulfil the highest requirements in terms of product quality and sustainability.
