Workshops

RETROFITS FOR SUPERMARKETS

11 NOVEMBER 2020

/11:00-13:00/ (GST)

WEBINAR

**HIGH-QUALITY EXPERT SEMINAR
FOR ENGINEERING AND MEP
CONSULTANTS, INVESTORS AND
PLANNERS IN THE MIDDLE EAST**

For more information and registration, visit www.eurovent.me

HVACR Leadership Workshops is a seminar series by Eurovent Middle East, tailor-made for engineering and MEP consultants, investors and planners in the Middle East, with the core aim of informing them about standards and industry recommendations in the field of ventilation, air conditioning and refrigeration. The non-commercial, free-of-charge seminars are spread across multiple workshops.

11 NOVEMBER 2020

/11:00-13:00/ (GST)

WEBINAR

REGISTRATION

Register free-of-charge at

www.eurovent.me

IMPORTANT NOTE

Participation limited to 500 persons. Access will be granted on a first-come first-serve basis.

In this HVACR Leadership Workshop by Eurovent Middle East, leading industry experts will elaborate on technologies best suited to retrofitting in supermarkets in order to significantly reduce energy consumption. Commercial refrigeration systems consume the most energy within supermarkets, accounting for about 40-60% of electricity consumption according to various studies in the market. Purchase of new, high-efficiency refrigeration equipment has cost implications, which is why making targeted retrofits or upgrades to existing systems could be the most cost-effective and practical strategy for many food retailers, supermarket owners and chains.

Webinar topics further include:

- Energy efficiency in supermarkets: An overview of retrofit options
- Optimising energy efficiency by adding variable speed to compressor racks
- Efficiency and reliability for supermarket retrofits using DC technology
- Energy efficiency of air curtains in supermarkets and cold rooms
- Savings from the air: Retrofitting fans in supermarkets
- Smart stores for energy efficiency

The individual topics will be followed by a panel discussion and dedicated Q&A session, where participants are invited to discuss any issues related to the topics.

Register now and become part of the **HVACR Leadership Workshop: Retrofits for Supermarkets**. Join us online on **11 November 2020 from 11:00h (GST)** for an informative exchange with peers and industry leaders.

AGENDA (TENTATIVE)

SESSION	TOPIC
1	Energy efficiency in supermarkets: An overview of retrofit options
2	Efficiency and reliability for supermarket retrofits using DC technology
3	Optimising energy efficiency by adding variable speed to compressor racks
4	Energy efficiency of air curtains in supermarkets and cold rooms
5	Savings from the air: Retrofitting fans in supermarkets
6	Doing more with less: Smart stores for energy efficiency

ORGANISER

Eurovent Middle East is the representative of Eurovent members based in and/or active in the Middle East region and a subdivision of Europe's leading HVACR sector association Eurovent.

Its participants constitute leading manufacturers of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation Technologies, as well as sector associations and national industry initiatives active in this field. By thinking 'Beyond HVACR', contributing organisations fulfil highest requirements in terms of product quality and sustainability.

They are united in their aim to work towards a lower energy demand, an improved food safety, and a better indoor air quality in the Middle East. Together, they employ thousands of people locally, supporting a more diversified economy throughout countries in the region.
