## IMPORTANT NOTE

Participation limited to 500 persons. Access will be granted on a first-come first-served basis.

In this 'HVACR Leadership Workshop' by Eurovent Middle East, leading industry experts will elaborate on the fundamentals and value of third-party certification to ensure product safety and compliance with relevant regulatory requirements. The seminars aim to deliver an understanding of the principles behind certification as a means to promote trust and reliability in the context of product performance and safety.

**Webinar topics include:**

- **Fundamentals of Product Compliance:** Differences between testing, certification and inspections in relation to standards and global market access
- **Safety, Performance, Energy Efficiency and Environmental considerations**
- **Safety certifications** (UL Certification Mark, IEC CB Scheme, CE Marking) and regulations in the MENA region
- **Energy efficiency and performance-based certifications:** Eurovent Certified Performance and the UL Energy Efficiency Leaf Mark
- **Benefits of Product Certification** for authorities, investors, planners and consumers

The individual topics will be followed by a dedicated Q&A session, where participants are invited to discuss any issues related to certifications and product safety and compliance. Register now and become part of the 'HVACR Leadership Workshop' by Eurovent Middle East - The Value of Product Certification. Join us online on **9 June 2020 from 11:00h** for an informative exchange with peers and industry leaders.

## ORGANISER

Eurovent Middle East is the representative of Eurovent members based in and/or active in the Middle East region and a subdivision of Europe's leading HVACR sector association Eurovent.

Its participants constitute leading manufacturers of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation Technologies, as well as sector associations and national industry initiatives active in this field. By thinking 'Beyond HVACR', contributing organisations fulfil highest requirements in terms of product quality and sustainability.

They are united in their aim to work towards a lower energy demand, an improved food safety, and a better indoor air quality in the Middle East. Together, they employ thousands of people locally, supporting a more diversified economy throughout countries in the region.
