

BUILDING RETROFIT

4 MARCH 2020

/18:00-21:00/

Dubai, UAE

**HIGH-QUALITY EXPERT SEMINAR
FOR ENGINEERING AND MEP
CONSULTANTS, INVESTORS AND
PLANNERS IN THE UAE**

For more information and registration, visit www.eurovent.me

'HVACR Leadership Workshops' is a seminar series by Eurovent Middle East, tailor-made for engineering and MEP consultants, investors and planners in the UAE, with the core aim of informing them about standards and industry recommendations in the field of ventilation, air conditioning, and refrigeration. The non-commercial, free-of-charge seminars are spread across multiple workshops.

4 MARCH 2020
/18:00 – 21:00/

**LE MERIDIEN DUBAI HOTEL
& CONFERENCE CENTRE**

AL GARHOUD, DUBAI, UAE

**MEETING ROOM:
FALCON BALL ROOM**

REGISTRATION

Register free-of-charge at
www.eurovent.me

IMPORTANT NOTE

Participation limited to
100 persons. Tickets will be
issued on a first-come
first-serve basis.

In this 'HVACR Leadership Workshop' by Eurovent Middle East, leading industry experts will elaborate on key technologies and strategies related to Building Retrofit. Retrofitting of HVACR systems have proven to be cost-effective alternatives to improve reliability, energy efficiency and flexibility of the systems to the benefit of the building owner through cost savings, Return-On-Investment (ROI) and improved comfort for the building occupants. The seminars aim to deliver an understanding of the principles behind the technologies which can be utilised to achieve these benefits.

Seminar topics further include:

- UAE Retrofitting Market and Improving Environmental Performance of Buildings through Retrofit
- DX Retrofits for Commercial Buildings
- Retrofit Solutions using VRF
- Retrofitting of AC and Ventilation Units with Smart Electronic Components Integrated in Hydronic Plants
- Improving Part Load Efficiency in Existing Buildings
- Improving savings on Chilled Water Pumps through balancing of the terminal units

The individual topics will be followed by a feedback session and discussion, where participants are invited to discuss any issues related to retrofits in buildings. This includes, for instance:

- Challenges for cost-effective and energy efficient retrofits
- Life cycle and cost benefit analysis
- Shifts towards digitalisation for effective building management

Register now and become part of the 'HVACR Leadership Workshop: 'Building Retrofit'. Join us at **Le Meridien Dubai Hotel & Conference Centre on 4 March 2020 from 18:00h** and meet colleagues and industry leaders for an informative evening with plenty of networking opportunities.

AGENDA (TENTATIVE)

TIME	TOPIC	SPEAKER/MODERATOR
18:30-18:50h	UAE retrofitting market and improving environmental performance of buildings through retrofit	Ms Afra Al Owais Vice Chair Emirates Green Building Council
18:50-19:10h	DX Retrofits for commercial buildings	Mr Srinivasan Rangan Director, Marketing and Product Management Rheem MEA
19:10-19:30h	Retrofit solutions using VRF	Mr Iyad Al Jurdy Senior Manager LG Electronics
19:30-19:50h	Retrofitting of AC and Ventilation Units with Smart Electronic Components integrated in Hydronic Plants	Mr Simone Grisenti Group Marketing Manager - HVAC Commercial CAREL (Italy)
19:50-20:10h	Improving part load efficiency in existing buildings	Mr Frank Grundholm VP - Global HVACR Sales ABB (Denmark)
20:10-20:30h	Improving savings on Chilled Water Pumps through balancing of the terminal units	Mr Anis Ben Ali Ouerghi Technical Manager Danfoss
20:30-21:00h	Moderated discussion	Mr Markus Lattner Managing Director Eurovent Middle East

ORGANISER

Eurovent Middle East is the representative of Eurovent members based in and/or active in the Middle East region and a subdivision of Europe's leading HVACR sector association Eurovent.

Its participants constitute leading manufacturers of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, and Industrial Ventilation Technologies, as well as sector associations and national industry initiatives active in this field. By thinking 'Beyond HVACR', contributing organisations fulfil highest requirements in terms of product quality and sustainability.

They are united in their aim to work towards a lower energy demand, an improved food safety, and a better indoor air quality in the Middle East. Together, they employ thousands of people locally, supporting a more diversified economy throughout countries in the region.
