Khimji Ramdas joins Eurovent Middle East

The region's industry association welcomes newest Corresponding Member

Dubai, 26 January 2020. Trusted and respected for more than 150 years in the Sultanate of Oman, Khimji Ramdas (KR) has consistently maintained its leadership position in the Consumer, Infrastructure and Industrial arenas. Khimji Ramdas is committed to being at the forefront of green initiatives and Corporate Social Responsibility, more especially in the coveted Air Conditioning Division (ACD).

Mr Muruvanda Chengappa, CEO, Infrastructure Group at Khimji Ramdas elaborates on the importance of being a part of an industry association, "Khimji Ramdas is dedicated towards energy efficient practices and is actively participating in building a greener environment. Eurovent Middle East is the region's only industry association which is actively working in this direction. Through mutual cooperation between industry stakeholders and regulators, environmentally conscious practices will help in building a strong foundation to improve energy conservation for the coming generations."

Director Technical and Regulatory Affairs at Eurovent Middle East, Ms Nerissa Deoraj adds, "The addition of Khimji Ramdas as a Corresponding member re-affirms the values and vision of the Association, working towards improved energy efficiency and sustainable practices through lobbying and awareness raising in the HVACR context. We are delighted to extend our reach to the Sultanate of Oman, where recent implementation of energy efficiency regulations for air conditioners have come into focus. Such developments prove beneficial to further reinforce Eurovent Middle East's market presence and value."

Eurovent Middle East is the region's industry association for Energy Efficiency, Indoor Air Quality and Cold Chain Solutions. Its participants constitute leading manufacturers of Indoor Climate (HVAC), Process Cooling, Food Cold Chain, Industrial Ventilation, and Building Automation Technologies, as well as sector associations and industry initiatives active in these fields. By thinking 'Beyond HVACR', contributing manufacturers fulfil the highest requirements in terms of product quality and sustainability. For more information, visit www.eurovent.me.
